It is here, just above the beach, only 150 metres from the sea that you will find Nakâra, the new 4-star holiday residence built by Promeo Patrimoine and designed by the renowned architectural firm, Jacques Ferrier Architectures. Succumb to this unique haven of peace with its 149 apartments in perfect harmony with nature. Thanks to its Mediterranean approach to sustainable development and its compliance with low-energy building (BBC) standards, Nakâra offers a new vision of architectural potential for responsible leisure.

The Cap d'Agde, the capital resort

Positioned between fresh and saltwater, the Cap d'Agde is the sailing capital, living by and for the sea. This daughter of the Mediterranean, born of a volcanic eruption, is both modern and very natural and offers the best of its culture. Its wild beaches, pine forests and dunes are just right for taking it easy as well as taking part in a range of activities from water sports, bike rides, diving, tennis or playing on international-level golf courses. Those looking for stronger sensations can indulge in all the thrills of Leisure Island, especially its water park.

A dream-like place

Welcome to the magic of Nakàra!
Let yourself be lulled by the sound of the waves, the white sands of Rochelongue Beach and the clear blue waters of the Baie de l'Amitié... just 150 metres away.

Between pines and residential villas, this innovative development displays top of the range environmental and architectural quality as illustrated by its 3 buildings and semi-detached villas with their immaculate shimmering mother of pearl facades and fine latticework creating a subtle play of light and shadow.

4 stars services

Living with a difference at Nakâra is also about enjoying an oasis of comfort, well being and services. The apartments and semi-detached villas are real cocoons, fully furnished and equipped, with sleeping room for 2-8 people in a zen-like and contemporary ambiance.
