TERRA GAÏA

Here in the heart of Sète, the Little Venice of Languedoc-Roussillon, Proméo Patrimoine has created a 4-star tourism and business centre. A magnificent complex rising gracefully between the Mediterranean and the Etang de Thau in the new Salins district, 30 min. from Montpellier, and just 300 m from the beach at Villeroy. An original concept, designed in full compliance with French BBC energy-efficiency standards, where the vast blue horizon of the waterscape before your eyes blends wonderfully with the greenery of the gardens that serve as the home to these two innovative buildings in perfect harmony with nature.

SÈTE

With the waters of the Mediterranean and the étang de Thau lapping underfoot, Sète revels in a rich tapestry of atmospheres and landscapes. 'The Singular Island' enjoys a cultural and natural heritage in which traditions have been preserved, alongside a multitude of discoveries. Sète is a combination of friendly locals, sunlight and the wide-ranging activities offered by these exceptional landscapes. From taking it easy on the beach to water sports on the Mediterranean or the Thau basin, from its internationally reputed festivals to its local gourmet cuisine, Sète is to be enjoyed without moderation!

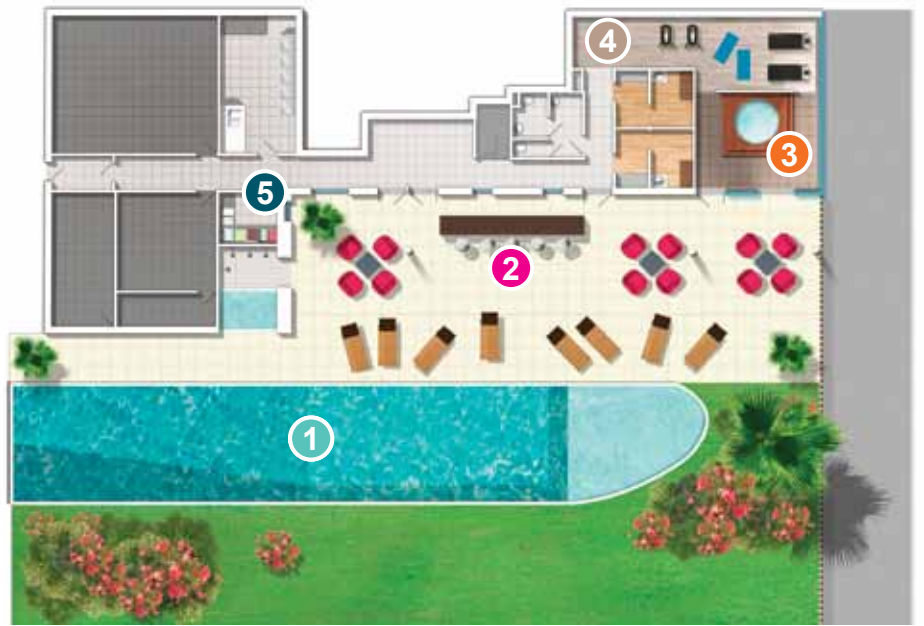

UNIQUE PLACE

Terra Gaïa, designed like a unique archipelago, contains three sets of buildings at varying heights. The overall silhouette forms a gentle shadow across the landscape, with large open windows overlooking the magical panorama of the Mediterranean or the Etang de Thau. The pure lines of its wood-inspired façade, in pastel and ochre colours, wonderfully capture the encounter between geometry and the surrounding countryside. A development which blends in perfectly with the new eco-friendly Salins district, just a pebble's throw from the deep blue.
